MTSS-B Behavior Support Team Retreats

Facilitated retreats for district- or school-level Tier 2/3 MTSS-B or PBIS teams

Dates: October 30, 2019 and May 18, 2020
Time: 8:00am–3:00pm (registration begins at 7:30)
Location: UNH Institute on Disability
57 Regional Drive, Unit 8, Concord, NH
Registration Fee: $250 per attendee per session

Fall 2019: Back to Basics: Tier 2 Systems, Data, and Practices
This session is for Tier 2/3 Teams to learn about or revisit the basic structures of successful supports and interventions for students with behavioral needs, including: 1) establishing your Tier2/3 Team mission, norms, and communication structure; 2) articulating the entrance and exit criteria and screening for Tier 2/3 supports; 3) how to use data and resources to identify your students' needs and appropriate small group interventions; 4) linking Tier2/3 supports to your Tier 1 system; 5) preparing and involving your students, parents, administrators, and staff to implement; and 6) implementation and progress monitoring. There will be ample time for teams to work on their individual plans.

Spring 2020: Time for a Check-In/Check-Out (CICO) Tune-Up!
This session is for Tier 2/3 teams to focus on the adoption, installation, and implementation of Check In/Check Out (CICO), an evidence-based Tier 2 intervention for students who need additional and positive support from school staff. There will be instruction on how identify students, gain consent, involve parents, staff training requirements, CICO tools, how to use the CICO data for progress monitoring (including the application in SWIS.org for schools that have access), and scheduling. There will be ample team time and individualized consultation. This session is best for schools that are ready to begin or have been implementing Tier 2 systems and practices.

Who Should Attend:
Teams implementing targeted/ Tier 2 & 3/ Behavior Support MTSS-B or PBIS. Attendance at both sessions is recommended but not required.

About MTSS-B:
Schools that implement a system of effective behavioral and academic interventions and practices have better educational outcomes and staff satisfaction. MTSS-B is an evidence-based framework designed to transform school environments to become less reactive through a team-based decision-making model and implementation of research-based practices.

The MTSS-B framework consists of three levels: Tier 1 (Universal), Tier 2 (Behavior Support), and Tier 3 (Intensive), each designed to prevent problem behaviors and address the behavioral support needs of students at risk of school failure. Behavior Support Teams match and monitor students who are not responding to schoolwide supports, increasing the level of support through function-based group interventions and simple behavior support plans.

Event Policies
Payment or a copy of a purchase order is due on the day of or prior to the event. To receive a full refund, cancellations must be made in writing seven (7) days prior to the event. For full IOD event policies, visit www.iod.unh.edu/events.
