

MULTI-TIERED SYSTEMS OF SUPPORT FOR BEHAVIORAL HEALTH & WELLNESS (MTSS-B)

Establishing Tier 1 Systems, Data, and Practices to Maximize Student Engagement and Learning

Dates: March 14, April 10, and May 1, 2019 | Location: The Falls Event Center, Manchester NH
Coaches Training: April 3, 2019, at UNH IOD, Concord NH | Coaches Live Webinar: May 15, 2019

Many New Hampshire schools continue to struggle with the complex social, emotional, and behavioral needs of students and staff alike. Failure to meet these needs not only affects academic achievement, it can also result in negative outcomes such as mental health crises, substance misuse,

dropping out of school, risky sexual behavior, and violence.

Addressing these needs has never more more important and requires more than quick fixes and one-day workshops.

The MTSS-B framework has been shown to improve student engagement, create school climates and cultures that are positive and inclusive of all students, and improve student academic and behavioral outcomes.

This interactive, hands-on training is for school-level leadership teams that are ready to implement the evidence-based Multi-Tiered System of Support Framework for Behavioral Health and Wellness (MTSS-B).

Participants will focus on how to establish Tier 1 “Universal” systems. School teams will learn how to organize their learning community to include diverse school and community voice, create a positive school-wide system, align multiple efforts and resources, and how to create a coherent, consistent, and positive environment for all students.

This package also includes one day of additional in-person training, plus a half-day follow-up live webinar, for each participating school’s team leader or MTSS-B Coach.

Presented by:

The New Hampshire MTSS-B Collaborative is a partnership between the NH Center for Effective Behavioral Interventions and Supports (NH CEBIS) at SERESC, Strafford Learning Center, and the Institute on Disability at University of New Hampshire. Our mission is to design, promote, and support NH’s Multi-Tiered System of Support for Behavioral Health and Wellness to improve educational outcomes for all children and youth.

Participants will learn about:

- The major features of MTSS-B
- How to establish an effective, efficient school-wide leadership team
- Establishing school-wide values and theme
- Aligning MTSS with social/emotional learning & trauma sensitive practices
- Developing procedures for teaching and acknowledging school-wide expectations
- Effective classroom practices
- Engaging family and youth voice
- Responding to concerning behaviors
- Data-based decision making
- Next steps for Tier 2 and Tier 3
