Effective team leadership and facilitation has proven to be key in implementing Multi-Tiered Systems of Supports with fidelity. This two-day training is designed for internal school coaches of Tier 1 (Universal), Tier 2 (Targeted), or Tier 3 (Intensive) teams. Participants will learn about best practices for supporting teams to use data-based decision making, establish buy-in, and ensure fidelity of MTSS-B implementation.

Orientation Call Agenda
- Discuss readiness
- Orient to the role of Coach
- Ensure you have adequate administrative support to take on duties
- Identify critical needs

Days 1-2 Agenda
- Understanding the role of Coach and feedback loops
- Facilitating effective team meetings
- How to establish buy in
- Helping teams action-plan and get work done between meetings
- Essential elements for fidelity
- Prepare to support teams
- Collaborate with other coaches

Day 3 Agenda
- Supporting classroom implementation
- Using data to progress monitor and make decisions
- Action planning and evaluation
- Building strong systems
- Collaborate with other coaches
