Implementation Science Training Institute

DATES: January 18–19, 2018
TIME: 9:00am–4:00pm (registration begins at 8:30)
LOCATION: Grappone Conference Center
70 Constitution Avenue, Concord, NH
REGISTRATION FEE: $599 includes continental breakfast, lunch, & materials, plus two hours individualized consultation and follow-up
WHO SHOULD ATTEND: Individuals and teams who are responsible for implementing practices and/or are supporting large scale initiatives. This learning forum will be an introduction to the implementation science through team application and activities. Teams will benefit the most if they have a key practice or initiative they are planning or currently implementing.

DESCRIPTION: The purpose of this training is to assist agencies and practitioners to develop a systematic framework for applying implementation research in order to:

- Improve the fidelity of effective practices
- Enhance the sustainability of implementation efforts
- Scale-up successful programs and practices

TRAINING OBJECTIVES:

- Explore how practices are sustained
- Key features of and reasons to use Implementation Science in the field
- Selection/identification of a practice worth implementing
- Exploration and initial application of the elements of effective implementation of evidence based practices

ABOUT IMPLEMENTATION SCIENCE: Understanding the key elements of implementation and how it helps agencies and schools to more effectively choose and implement a new practice or initiative (such as Youth-Driven Wraparound, Multi-Tiered Systems of Support in Schools, Supported Employment, etc.).

This training will allow teams to apply the proven principles and features of implementation science to real life practice/s they select. Likewise it will be essential for participants to be able to articulate the level of implementation of their project (e.g., statewide and/or systems level, school level, individual agency level, individual level). Practices that can be more easily associated with student or system performance will be more easily applied to the learning activities for this two-day event.

INSTRUCTORS:
Beth A. Steenwyk, BS, MS, EPFP Fellow, Certified Mediator, System Design & Implementation Consultant
JoAnne Malloy, Ph.D., UNH Institute on Disability

Event Policies
Advance registration is required and accepted in the order received. Payment or a copy of a purchase order is due on the day of or prior to the event.

If an event is cancelled or postponed, registrants will be given the option of cancelling their registration, receiving a full refund, or attending the event if the event is rescheduled.

To receive a full refund, cancellations must be made in writing seven (7) days prior to the event. Cancellations received within six (6) days of the event are not eligible for a refund.
