Learn to Empower Youth to Build a Brighter Future

Register Now for RENEW Facilitator Training Institute

Description

A three-day, in-depth training on the RENEW model and process.

RENEW is a youth-directed planning and support process designed to meet the needs of young people ages 14–26 who may be struggling in various areas of their life, have a limited social support system, and need to figure out where they are headed.

Through group activities and instruction, learn to engage youth, facilitate personal futures planning through mapping, develop individualized teams and resources, conduct school-to-career planning, and empower youth to lead the process.

Participants leave with the knowledge and skills to begin facilitating RENEW with youth. Full implementation includes receiving coaching and establishing a team to oversee the work.
