

LOOKING FOR A PROFESSIONAL DEVELOPMENT OPPORTUNITY? STAYING SAFE AT WORK TRAINING

A Curriculum for Teaching Workers with Intellectual and Developmental Disabilities about Health and Safety on the Job.

Through the Department of Labor (DOL) Susan Harwood Training Grant, the Institute on Disability seeks to address the shortage of occupational health and safety training for workers with Intellectual and Developmental Disabilities (IDD) by offering the Staying Safe at Work curriculum.*

Through a train-the-trainer model, attendees will be provided with the necessary tools to teach those with IDD the skills needed to be safe at work. The training is broken down into six areas which include:

- 1) *Introduction to Workplace Health and Safety*, 2) *Looking for Job Hazards*, 3) *Making the Job Safer*, 4) *Staying Safe in an Emergency at Work*, 5) *Your Rights & Responsibilities on the Job*, and 6) *Speaking Up When There is a Problem*.

Trainees will receive:
a training manual, a certificate of completion, and optional UNH CEU's.

The trainings will be held virtually to encourage interactive learning, while ensuring trainees' safety during the COVID-19 pandemic.

Various options for the training include:

- Three two-hour segments
OR
- Two three-hour segments
OR
- One six-hour segment

For training opportunities, visit:

<https://iod.unh.edu/projects/employment-safety-training>

Alternative dates/times may be arranged upon request.

Trainings like this can also support a long-term goal of employment through volunteer opportunities.
